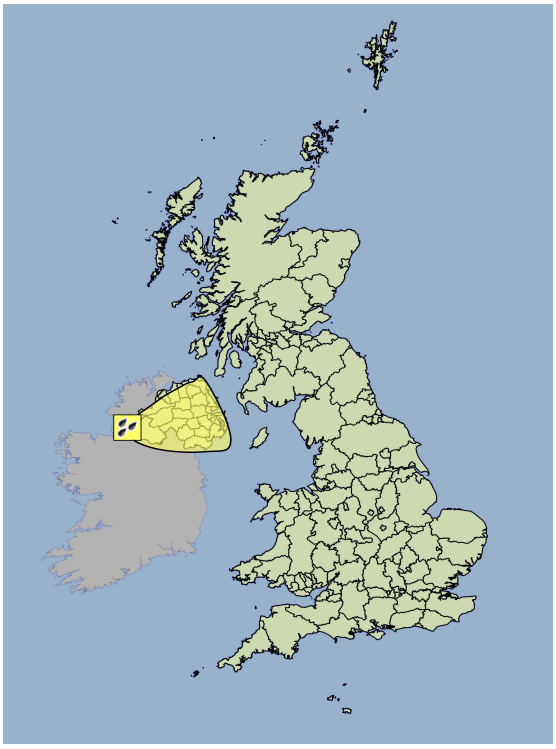
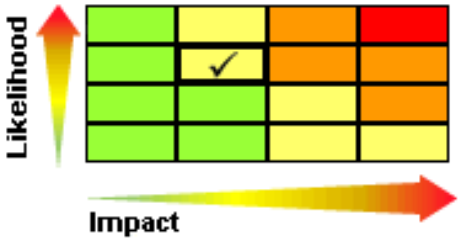
National Severe Weather Warning Service





Chief Forecasters Assessment
A complex low pressure area will push fronts and bands of rain northwards across Northern Ireland on Tuesday. 15-30 mm will fall quite widely within a 6 to 9 hour period, with as much as 50 mm possible over high ground facing the strengthening easterly winds, such as the Mourne Mountains and Antrim Hills. The more persistent rain will clear from the south by the early afternoon, although showers may break out later.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **06:00 on Tue, 05th May 2015** until **15:00 on Tue, 05th May 2015**

Heavy rain will spread from the south on Monday night to affect Northern Ireland on Tuesday morning. This will bring some difficult travelling conditions for the morning commute, with standing water and spray likely to affect many roads. The public should be aware of the risk of some localised flooding and disruption to transport.
